## Shooting Season Opens Thursday

Few Changes Noted in the  
Game Code for  
This Year

The annual hunting season opens Thursday, Oct. 16, when the shooting season for migratory waterfowl opens in Illinois. The opening day is expected to bring thousands of hunters into the area and the first few days are also expected to produce good sport among the migratory waterfowl as well as some of the seemingly inevitable accidents that accompany the season opening.

Only minor changes in the game code are noted this year. The season dates are from Oct. 16 to Dec. 14, inclusive, for ducks, brant and coots (mudhens); but rails and gallinules may be taken from Sept. 1 to Nov. 30. Shooting hours are from sunrise to 4 p. m. for ducks, geese, brant and coots. Feeding or baiting of birds or the use of live decoys is prohibited. Three-shoot limit on repeating shotguns, not larger than 10 gauge, is permitted.

Section 33 of the state game code provides the following restrictions: "It shall be unlawful for any person to take migratory waterfowl within 100 yards of any waterfowl refuge; for any person to establish or use any blind for taking wild geese within 150 yards of any other blind or within 75 yards of the boundary of the property upon which such blind is located; for any person to use any floating blind other than a floating blind that is securely fixed or anchored, except that crippled birds otherwise irrefragable, may be taken from a boat propelled by oars.

The daily limit for ducks is 10, in the aggregate of all kinds; geese, daily limit 3; coots 25. Possession limits—ducks and geese, 2 days; kill; coots, 1 day's kill.

A federal duck stamp must be had by persons 16 years of age or over when taking any kind of migratory waterfowl. Stamps may be purchased at any post office.

## Religious Council To Hold 71st Annual Session October 18

The Lake County Council of Religious Education will hold its annual convention at Central Christian church, Waukegan, on Saturday afternoon, October 18, beginning at 1:45 o'clock. This organization, which has held a convention in the county every year since its inception 71 years ago, is organized to give inspiration, help and encouragement to church school teachers and leaders throughout the county, and to bring to them the latest and finest methods of teaching and study in religious education.

Dr. Norman E. Richardson, well known throughout the nation as an outstanding authority in the field of religious education and training and who is Professor of Religious Education at the Presbyterian Theological Seminary, Chicago, will deliver the Saturday afternoon address on "Cooperation in Training for Christian Leadership." Following the address church school leaders of Waukegan will participate in a panel discussion. An election of officers is scheduled for this session, to serve the Council of Religious Education during the coming year. The presiding officer will be the Rev. Loyal V. Siler, of Waukegan, president.

On Sunday, evening, Oct. 19, at 8:00 o'clock, the young people from Lake county churches will gather at the Central Christian church to hold their annual conference of worship and fellowship.

Lake County churches, Sunday schools and young people's groups have been asked to send as many delegates as possible.

## Highland Park Pastor to Address Youth Meeting

The Rev. L. H. Laubenstein of the Bethany Evangelical church in Highland Park will be the guest speaker at the PCV meeting to be held at the Libertyville Methodist church on Tuesday night, Oct. 14. The meeting will start promptly at 8:30 p. m.

Ruth Ferris of Antioch will lead the devotions. Refreshments will be served by the committee in charge.

Wendell Nelson, of Antioch and Milan Dians of Waukegan have arrived in Los Angeles, Cal., according to word received here this week. The boys report an enjoyable trip and state that they expect to seek employment on the west coast.

Village Marshal William Thiemann has been busy during the past week rounding up a number of persons who have not paid their village vehicle license tax as yet.

## Indiana Woman Is Injured in Accident at Hwys. 45-173

Mrs. Virginia Hendren of Westfield, Ind., was brought to Antioch by the rescue squad for treatment by a physician for injuries suffered when a car driven east on Route 173 struck the automobile and trailer in which she and her husband were traveling north on Highway 45 Saturday morning. The driver of the other car, H. G. Rich of Chicago, was charged with failure to stop for a state traffic sign. The automobile he was driving was said to be the property of A. Starr Best, Evanston, proprietor of a chain of women's wear stores.

Dr. A. P. Bratrude treated Mrs. Hendren for cuts and bruises.

## FEDERAL TAX POSES SLOT MACHINE DILEMMA

"To Pay or Not to Pay" Is  
Tough Question Facing  
Resort Area

The bewildered soul who wailed, "What'll I do? I'm damned if I do and damned if I don't" when offered a choice of two equally unpleasant alternatives had nothing on proprietors of Lake county establishments where-in are located either slot machines or pin ball machines.

Proprietors in the Antioch and Fox Lake areas were notified by federal tax investigators Tuesday that they will be required to pay a tax on Nov. 1 on each such machine now operating. Since the federal fiscal year is from July 1 to July 1, this would not be the tax for the full year, which would amount to \$50, but a proportional tax of about \$37.50.

The problem of paying the tax puts the proprietors of establishments or owners of machines in a somewhat delicate situation.

If they don't pay the fine by Nov. 1 they are liable to a penalty of \$500. If they do pay it, they tacitly admit possession of the machine on which the tax is paid—and slot machines are unlawful in the state of Illinois. A recent ruling of the attorney general also classifies pin ball machines as unlawful. The Antioch village board licensed pinball machines prior to the issuance of that ruling. It is not known what official action, if any, will be taken locally in view of the numerous changes that have occurred in the situation during recent weeks.

## Heart Attack Proves Fatal to Christian Taubel

Antioch Man, 80, Dies at  
St. Therese Hospital;  
Burial in Chicago

Christian Taubel, 80, died Friday night at St. Therese hospital in Waukegan, where he had been taken by Antioch Rescue squad last Thursday morning after suffering a heart attack. Surviving are his wife, Tugan; his daughters, Mrs. Emil (Margaret) Lubkeman of Antioch and Mrs. J. B. (Rahel) Johnson of Brooklyn, N. Y., and a grandson, Victor Bruce Lubkeman.

He was born in Oslo, Norway, Nov. 4, 1860. During the past seven years he has made his home in Antioch, coming here from Chicago.

Services were held Monday afternoon in Strang Funeral home, with burial in Acadia Park cemetery, Chicago.

## Thirty Students Enroll For First Aid Course

An additional enrollment of 15 young men from the Pickard plant this week swelled the total of those receiving the Red Cross First Aid course here to 30. Fifteen had previously signed for the class which meets on Wednesday nights. The Pickard employees will receive their first instruction Monday night, with Harry Greenlee as instructor.

## City Briefs

Elementary school teachers of Antioch township will hold a dinner meeting this evening in the Ball hotel, with Miss Ayleen Wilson presiding as chairman. The origin and aims of the Illinois Educational association and recent school legislation will be discussed.

Several members of the Antioch village board are planning to attend various sessions of the annual convention to be held by the Illinois Municipal League next Wednesday, Thursday and Friday at the Congress hotel in Chicago.

## Protests Reckless Driving in Village

Resident Says Young Drivers  
Use Streets and Park-  
ing Lot as Stunt Grounds

The News has received a lengthy and very justifiable protest from a resident who resents the lawlessness and evident disregard for life and property that is being practiced by the younger car drivers of the community. This is not the first such protest received by the News.

In the protest, which was brought to this office by the resident in person, young drivers are charged with parking cars in alleys and in lots behind buildings and then dashing out at reckless speed, blocking sidewalks, and using the free parking lot as a speedway and stunt ground. Attention is also directed to the fact that many cars, including the largest trucks, race along Main street at excessive speeds.

"If some of the parents saw how sonny handles the old family bus their hair would stand on end," the resident writes. "It's time to curb some of these show-offs before tragedy occurs. To be maimed or crippled for life is something no one wants, so why not be more careful and why not respect the other fellow's rights?"

The writer of the protest urges parents to take the youngsters in hand. However, it is the opinion of citizens that the youngsters who are charged with recklessness and with disturbing the peace are quite out of hand around their homes, and that the "old man" just doesn't count any more. It's a clear case, and the obvious duty of law-enforcing officials to take the situation in hand—and at once.

Ho, Hum! Chicken dinner season again... just when a lot of the girls are thinking of dieting to meet the new skimp-fashions... Guess maybe something oughtta be done about the fashions.

Well, after re-viewing the European war situation a lot more, we can sort of understand why a lot of our ancestors got out of there and came over here. The Indians were more civilized company.

Somebody, somewhere, who is going without a denture—false teeth, to you—and living on a liquid diet, mayhap, should check with Mary Cosgrove at the Antioch Five and Ten cent store to see if a set that was found the other day is their'n. Here's wishing you luck.

Those Daniel Boone style raccoon trimmed caps over at Otto S. Klass' kind of fascinates us... Just the thing for hunting, trap shooting, etc., etc.

The interior of the Chase Webb store, new home of the Antioch Five and Ten cent store, is beginning to take on a decidedly attractive appearance, what with remodeling, white (continued on page 4)

## Kindergarten to Open Monday at Grade School

Miss Dorothy Kurzenknebe  
of Evanston Will Be  
Teacher

Antioch Grade school's kindergarten, the only one in Lake county aside from those in Libertyville and north shore towns, will open Monday morning, Oct. 13.

Miss Dorothy Kurzenknebe of Evanston has been secured as teacher. Parents wishing to enroll their children may bring them to school some time between 9 and 11:30 a. m. Friday or Saturday of this week. Children who will be five years old on or before February 1, 1942, are eligible. Children from other districts outside the Antioch Grade school district may attend, providing suitable tuition arrangements are made by the parents. R. E. Clabaugh, principal, states.

In the afternoons, Miss Kurzenknebe will be engaged in other teaching work at the school.

Miss Kurzenknebe has a Bachelor of Science degree in education from Northwestern university. She taught for a number of years in Evanston and Glenview, and has also taught at Lincoln Park day school.

## Waukegan Artist First to Illustrate Twain Novel

In a newspaper story of 1877, according to the Illinois Writers' Project, W. P. A. True Williams, a Waukegan boy, was named as the illustrator of "The Adventures of Tom Sawyer" published in that year.

The articles, which appeared in the Chicago Evening Journal of Jan. 22, 1877, quotes from a letter to the Waukegan Gazette in which the correspondent said, "I notice that the one selected from all the New York artists to illustrate Mark Twain's last book, 'The Adventures of Tom Sawyer,' is our old Waukegan friend, True Williams. Surely has 'Tude' won his way from the bottom... until he is now recognized as one of the first artists of the metropolis."

## ED SMALL SELLS LOON LAKE TAVERN

Mrs. Mabel Christiansen, who with her husband formerly operated Hans and Mable's Place on Grand ave., Fox Lake, has purchased Loon Lake tavern from Ed Small. The deal was completed yesterday. The tavern in the future will be operated under the name of Hans and Mable's. They plan to redecorate the place and will hold a grand opening on Saturday, Nov. 1.

## Village Takes out Insurance to Protect Rescue Squad Members

Members of the Antioch rescue squad are to be protected while on duty by a "blanket" insurance policy, similar to that which now protects the firemen, it was decided at a meeting of Antioch village board Tuesday night.

The policy being taken out includes compensation for injuries or fatalities, provision for doctor and hospital bills, and also compensation for loss of time from work because of injuries.

Three bids which had been asked for improvements to the heating system at the fire station were opened, and John Dupre was awarded the work on the low bid. Heat is maintained in the fire station throughout the cooler months so that the motors of the fire engines will start instantly and function smoothly during a fast take-off.

## NAME 4-H CLUB HONOR GIRLS AT YEAR END MEET

Twenty-four 4-H leaders attended an all day meeting at the Home Bureau office in Grayslake on Monday, Oct. 6th, for the purpose of grading the 4-H club girls' handbook of the 304 enrolled in girls' projects in 1941. One hundred forty-two were selected as outstanding club members and 52 were selected as project honor members. Project honor members are those who have done a high quality of work this season. Outstanding club members are those who have done an outstanding quality of work for three or more years. These records have been sent to the University of Illinois where they will compete with those from other counties in making up the State Honor Roll.

Among the fourteen girls named as outstanding members is Lois Bonner of Lake Villa, who is also named as a project honor member. Other project honor members are: LaVergne Harkensee, Antioch; Alice Denman, June Banks, Rosa Urech, Carol Up-ton, Barbara Nelson, Betty Wildermuth, and Georgina Lee Reidel, all of Lake Villa; Marilyn Will, Ronnie Jean Vasey and Betty Anderson, Grayslake.

## Men Are Home From Hospital

George Schlosser, Public Service company employe, is recovering at his home on Spafford street after having undergone an operation at St. Therese hospital. Robert Burleigh, also of the Public Service company, has returned to his home in Ingleside after several days' stay at St. Therese hospital for observation and treatment.

Mr. and Mrs. Rudolph Eckert are spending a few days this week with relatives in Indiana. J. Rasmussen of Kenosha is in charge of the Gamble store here in Mr. Eckert's absence.

A membership drive was launched Tuesday afternoon when the room mothers held a tea at the grade school. Committee members will make a canvass of the community and will distribute year books containing the year's program.

A panel discussion entitled "Getting Under Way," will be held by the Lake County Council at 7:45 at Rockland school in Libertyville on Tuesday, Oct. 14. Delegates from the local P. T. A. are Mrs. Hugh Hufendick and Mrs. W. W. Ward. County Sup't W. C. Petty, Prin. J. O. Austin and Prin. R. E. Clabaugh are on the program.

## L. C. Christensen Will Hold Last Sale Oct. 29

A Racine county farm which has been visited by thousands of farmers, cattle buyers and livestock dealers during the past quarter of a century will be host to the public for the final time on Wednesday, October 29, when the largest sale of its history is scheduled.

On this date Colonel L. C. Christensen will disperse all the personal property on the farm, located on County Trunk K, 1/2 mile west of Franks-ville, and operation of the farm will pass into private hands, as the estate has been leased for cash to Fred Behrens of Palatine, Ill.

This large farm of more than 300 acres has changed hands only three times since the government issued its original deed on Oct. 6, 1842, to Benjamin Smith, who held it until March 15, 1866, when it was sold to John M. Roberts. At that time Mr. Roberts built, largely with his own hands, the large 25-room house which still stands intact. Other farm buildings have been replaced from time to time, culminating in the erection of the large show barns about 8 years ago. On June 27, 1912, Mr. Christensen bought the farm, and since then has conducted auctions there regularly and established it as the home of the L. C. Christensen & Co. livestock firm. Each spring thousands of visitors have attended the annual sale.

Various tenant families have operated the place under the supervision of Colonel Christensen, and now, in an effort to enjoy more leisure, he has (continued on page 8)

## Political Cushion No Shock Absorber

When a house is afire people do funny things—like the lady who threw her mirror out of the window and carried her coat on her arm.

For years past, many of us have been blinded by a smoke screen of "emergency," and have been throwing some of our most prized possessions out of the window as a "remedy."

Now, with the greatest emergency of all facing us, we stand to lose the very substance of our independence if we don't waken from a hypnotic spell under which we have been made to think we must look to government largesse for our sustenance and livelihood.

Government has become so great in the lives of millions of citizens, that a great proportion of our population actually feels that it is incapable of caring for itself. Those who would bring about a more completely socialized form of government, are using the defense emergency to the utmost to extend their official control over the individual and industry in many fields, beyond war necessities.

We have long seen the trend developing to nationalize the electric industry, banking, real estate operations and other activities too numerous to mention. We now see it extending to the oil industry, and quietly but insidiously to the coal industry. States' rights, as well as individual rights, are ruthlessly destroyed in this process.

If our primary natural resources, such as electricity, oil and coal, can be sufficiently Federalized, the foundation is laid for national socialism in Germany or Russia. The existence of virtually all business, large or small, is wrapped up in our basic industries. The inevitable result of socialization of industry is the creation of a vast and invincible political bureaucracy with power concentrated in the hands of the few. That is the most obvious lesson that present-day Europe has to teach us.

It is the will and determination of those in high places to retain democracy in this country, not emasculate it, that our people should watch today.

States' rights and individual rights are wrapped up in the issue of encouraging and protecting the American enterprise system. Don't be blinded by the argument

that government can do everything for states and individuals, better than they can do it for themselves.

We must not be deluded with any idea that we can throw private enterprise system out of the window and carry some socialized political cushion to absorb the shock.

## Hitlerian Tactics Here

To put it bluntly, it is clear that certain powerful labor leaders have one aim in mind: To make it impossible for any man to obtain a job, any man to earn a living, unless he belongs to a labor union. These labor leaders, in short, are driving toward a labor monopoly—and toward personal dictatorship over every working man and woman in this country.

In pursuing that goal, these leaders will use any weapon that comes to hand. They will call strikes in defense industries, apparently not caring a whit that the country's security and safety are thereby imperiled. They will rig labor elections in one way or another, so that the ordinary union man is virtually voiceless. They will, on occasion, stoop to violence and terrorism. They make use of that most terrible weapon—the black-list. Their obvious purpose is to put the fear of God into workers and employers, so that they will knuckle under.

The callous disregard certain labor leaders have shown for government itself in this time of grave crisis indicates the way the wind blows. They make totally unjustified and impossible demands on industry on an "or else" basis. Their methods are often impossible to differentiate from those of Capone in the heyday of organized vice. This projected labor monopoly is one of the most serious problems the United States has ever faced.

Let this state of affairs go on long enough, and the country will be helpless. A few fat-salaried labor leaders will rule this country as surely as Hitler rules his Reich. Nothing will be done without their permission—and on their terms. These are the syndicalistic tactics that did much to destroy France.

## Worms in the Foundation

Private enterprise is being attacked on many fronts by political factions that are constantly attempting to socialize it.

Wages are skyrocketing with no ceiling in sight. Prices and living expenses cannot be controlled with wages running wild.

The public is indifferent toward debt and preventable waste in public spending.

Here is a situation that can lead to most any kind of political upheaval. In the process, the people can lose liberty itself.

#### CHRIST OUR SAVIOUR

LESSON TEXT—Matthew 20:25-28; Luke 19:1-10.

GOLDEN TEXT—For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.—John 3:16.

"I believe in God, the Father Almighty, and in Jesus Christ His only Son, our Lord. . . . I believe in the Holy Ghost." How often we have solemnly repeated these words in the Apostles' Creed, and how appropriate it is that our present three month series of lessons on great Christian teachings should begin last Sunday with a study of God, the Creator and heavenly Father, and continue today with Christ the Saviour, and present next Sunday the Holy Spirit, the Comforter.

These are profound Christian truths, but at the same time they are so simple as to be grasped by the youngest child. Today we have the great privilege of presenting in our classes our Saviour, the Lord Jesus Christ. He was

I. The Self-Denying Servant (Matt. 20:25-28).

Scripture clearly teaches that God's standards are not the same as the world's standards, and that His methods of operation are just the opposite of those of the world. All too often Christians and churches imitate the world both in principle and practice, with disastrous results. Consider

1. The False Greatness of the World (v. 25). "Rulers"—"greatness"—"exercise authority"—how altogether up-to-date these words sound. They are the big and swelling words of the small hearts and minds which rule after the manner of this world. They epitomize the ambitions of the great majority of mankind, but they are definitely non-Christian. We see that as we go on to consider.

2. The Humility of True Greatness (vv. 26, 27). Service in the spirit of humility and self-sacrifice—this is the standard of Christ. Yes, and it is His command to His followers. To be great for Christ one must become the servant of others. This teaching appears all through Scripture (for example, see Luke 4:11; John 13:13-17; 1 Pet. 5:5, 6).

How often service in the church is rendered in a spirit of pride, self-glory, and for the commendation and reward of men. When that reward is not forthcoming or some real humbling sacrifice is required, the work is not desired or the worker becomes offended. Here is one of the roots of trouble in the church. Let us put it away as we look upon

3. Christ Our Example (v. 28). He paid the price of our redemption, going to the death of Calvary for us. From the highest glory which He had with the Father (John 17:5), He graciously stooped to deepest ignominy as He became sin for us (11 Cor. 5:21). Throughout both His life and His death He perfectly represented that self-denying, self-humbling service which He expects of His followers.

II. The Seeking Saviour (Luke 19:1-10).

There is much that is precious and beautiful to be said about our Lord, but perhaps nothing which brings Him so close to needy humanity as the fact that He had "come to seek and to save that which was lost" (v. 10). He was

1. Ever Interested in Sinners (vv. 1-7). Jesus was on this occasion coming up to Jerusalem for the last time. The cross was ahead. He was much taken up with His coming death and greatly straitened in spirit (see Mark 10:32 and Luke 12:50). He was passing through the great and wicked city of Jericho, yet in the midst of His deep sorrow and out of the vast multitude of that city He reached out to touch one sinner.

Zacchaeus was a man despised for his calling of tax collector, and hated for his dishonesty. He was an outcast from his own people and a stranger to God's grace, but Jesus was interested in him. Are we ready thus to go to seek and save the lost? Are we better (or busier) than our Lord?

2. Always Able to Save Sinners (vv. 8-10). Zacchaeus was a rich man, but he was a sinner. It is not easy for a rich man to be saved, but it can be done (see Matt. 19:23-26). Read the preceding verses of that chapter (vv. 16-22) and you learn of another rich man who was not saved, the rich young ruler. He was a far better man than Zacchaeus—honest, upright, honored in his community. How was it that the wicked and despised rich man was saved and the good and respected rich man was lost?

The answer is that the former admitted that he was a sinner and thus made it possible for Christ to save him; while the latter loved himself and his gold more than Christ and shut the door against His redeeming love.

## Find Peeping Birds In Film Sound Box

THOMASTON, CONN.—The occasional peeps didn't seem to jibe with the picture being shown in a Thomaston theater, so Robert Schwartz, the owner, investigated.

In the sound box of the speaking equipment he discovered a nest with a mother robin and two babies.

## Air Cadet Eludes Death by Miracle

### Thrown From His Plane, He Lands on It Again.

BELLEVILLE, ILL.—A freak air accident gave a young army flying cadet a quick look at death the other day, then miraculously saved him. The youth, Cadet Victor Woodruff, 23, of Three Oaks, Mich., was thrown from an army training plane as it struck "bumpy" air over an airport here. He somersaulted through the air and landed well back toward the tail assembly. Riding the fuselage like a cowboy, he was brought safely to earth by his instructor of the controls of the ship.

Woodruff was on a training flight from Curtiss Wright air field, army training base near St. Louis, where he is a student in the air corps training detachment at Parks Air college. Piloting the ship was instructor David Mattis, 26, of St. Louis, a veteran aviator. The plane was a two-seated, open-cockpit Fairchild PT19. The fliers were at an altitude of 500 feet when the accident occurred as they were coming down to land at an auxiliary field.

Unbeknown to Woodruff, his safety belt had become unfastened and when the plane flew into a sudden down draft it literally dropped out from under the cadet, who was in the back cockpit. The plane fell faster than he did, leaving him in the air. As he plunged downward, his body described a somersault and a half turn. The plane, dropping straight down, was directly under him when it apparently hit the bottom of the down draft.

When the youth struck the tail he quickly forked his legs over either side of the fuselage just ahead of the rudder. With his back toward the cockpit, he dug his feet into the covering until his heels tore holes in it, hanging on grimly as he looked out into space. When the plane came to a stop on the airport, Woodruff stepped off his precarious perch and took a look at his heel holes in the fabric. After a physical examination that showed he was unhurt, he went as usual to his ground crew classes.

## Girl Jots Down Notes As Death Approaches

LIVERPOOL.—Writing a letter to her sweetheart as bombs were falling all around her house, a girl described the last moments of five persons.

It is believed that a few minutes after she had put her pen aside a bomb fell on the house, killing her, her father, mother, aunt and a friend.

This is what the girl was writing: "The warning has just gone and the guns are going. I wish you were here with me. Every time they dive I go sick inside."

"I am going to read your letter and see if it will give me a bit of luck."

The letter went on to tell of the crump of bombs falling nearby, and concluded:

"I am now lying under the table. We have just had an incendiary bomb in the yard. My hand is shaking . . ."

The girl's body was found next day wrapped in a tablecloth.

## Boy's First Aid Saves Life of Pal Hurt in Wilds

SILVER CITY, N. M.—Darkness and a heavy rain overtook Bill Pavey and Milton Anderson as the two 10-year-old youths were making their way back to camp from a trout stream.

Climbing a narrow mountain trail, Pavey lost his footing and fell over a 50-foot cliff. Anderson clambered to his side, applied first-aid treatment he learned as a Boy Scout, then set out on a 20-mile hike for aid.

A rescue party brought Pavey to near-by Santa Rita. He suffered head and back injuries, a broken arm and leg, shock and exposure. But, said a physician, he will recover because of the first-aid treatment.

## Glass Bits Embedded In Scalp for 15 Years

CAMDEN, N. J.—It's a good thing John Kelly, 39, did not dig in too hard when he scratched his head for he probably would have suffered cut fingers.

Kelly's head started to ache all of a sudden and he couldn't understand why. So he went to Cooper hospital for an examination and physicians discovered several pieces of glass embedded just below his scalp.

The astounded Kelly guessed that the glass fragments had been in his head ever since he was thrown through the windshield in an automobile accident 15 years ago.

# Wondering about the 1942 cars?

Here is Buick's superb solution to the problems posed by making  
our national defense, as it should be, industrial America's No. 1 job

## BUICK BUILDS FOR DEFENSE

Our assignment: Build-  
ing Pratt & Whitney  
valve-in-head aircraft  
engines for defense use.

IT WAS no time to duck or dodge the facts.  
I So we didn't try.

Instead we said—these being the materials  
critical in the defense program, we'll do our  
planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car—cer-  
tainly not for any "ersatz" number.

We had to have a real and representative  
Buick. One we could be proud of. One able  
enough, active enough, durable enough to serve  
till annual new models are the rule again.

We resolved on a 1942 automobile of such  
merit as could carry the Buick reputation  
without fault until other new Buicks, however  
far off, could come along to refresh it.

Now we're announcing those 1942 cars.

Why waste words telling you how good they  
are! You can't put language in the gas tank  
and learn either how many or how enjoyable  
are the miles you'll get per gallon.

There's a better answer—you drive these  
cars themselves. Come on, do that! Put your  
own yardstick on their quality.

It would be a shame, for you and for us, to  
have you miss the dreadnaught Buick we've  
built to stand up successfully to the toughest  
job in years.

## Homer LaPlants Enjoy Honeymoon Trip to N. Wis.

Enjoying a honeymoon trip to northern Wisconsin this week were Mr. and Mrs. Homer LaPlant, whose marriage took place Saturday afternoon at a quiet service in the Des Plaines Methodist church, with the Rev. Philip T. Bohi officiating.

On their return they plan to make their home with the bridegroom's parents, Mr. and Mrs. Sol LaPlant of Antioch. The bridegroom has for the past several years been carrying on the masonry business in which Mr. LaPlant, senior, was engaged before his retirement from the trade.

The bride is the former Miss Lucille Kral, daughter of Mrs. Emily Kral of Chicago. During the past several years she has been in the employ of the Stewart Warner company in Chicago.

For the wedding, at which only a few immediate relatives were in attendance, she wore a frock of blue velvet and tulle, with matching hat and duobonnet accessories, and a corsage of two duobonnet-colored orchids.

Mrs. Joseph O'Brien of Chicago was her matron of honor, wearing dark brown with accessories in rose color and a corsage of roses. Mr. O'Brien acted as best man.

A reception for 40 guests was held in the home of the bridegroom's sister, Mrs. Harry Schumacher of Antioch, after the ceremony. Since the event was also in the nature of a shower, decorations carried out both wedding and shower themes.

A parol from which were suspended pink and white streamers, was swung from the chandelier beneath which stood a table bearing a three-tiered wedding cake.

The wedding supper was served in the basement play room of the home, which was also appropriately decorated.

The bride was honored recently at a party given by a group of her friends in Chicago. The couple's wedding presents included a chest of silver, the gift of the Stewart Warner section where the former Mrs. Kral was employed.

## Betty Reineback of Lake Villa Becomes Bride of Chicagoan

At four o'clock last Sunday afternoon at Antioch, Miss Betty Reineback, only daughter of Mr. and Mrs. Carl Reineback of Lake Villa, was united in marriage to Eugene Anderson of Chicago, and the Rev. W. A. McArthur of Lake Villa church performed the ceremony in the presence of a large assemblage of relatives and friends.

The chapel, with its fluted columns and decorations of ferns, chrysanthemums and gladioli, furnished a beautiful setting for the ceremony. Preceding the service, Mr. Anderson, at the chapel organ, rendered several selections and a boys' choir from Allen dales sang "Oh, Sweet Mystery of Life" and "Ave Maria."

The bride was beautiful in her gown of white silk jersey with Juliet cap of real lace (presented to her by her aunt) with a long veil and carrying a bouquet of Easter lilies. She was attended by the bridegroom's sister, Mrs. Zara De Michaels, as matron of honor, and she was in ivory tulle. Bridesmaids were Edith Elliott of Fox Lake, in gold tulle and Jean Childs of Lake Villa, in dusty pink. All carried bouquets of daisy mums. Little Anthony Leonard, Jr., cousin of the bride, brought in the ring on a white cushion and Karen Martin and Nancy Sheehan in aqua and blue bows attended by his brother-in-law, LaSalle were flower girls. The bridegroom was attended by his brother-in-law, LaSalle De Michaels of Chicago, and ushers were Jack Grubich of Fox Lake and Dick Wenke of Chicago.

A reception for thirty-five relatives and friends at the home of the bride's parents was held after the ceremony, and guests were presented from Springfield, Freeport, Chicago and nearby places.

The bridegroom is employed by an electrical company in Chicago and the bride conducts a beauty parlor in Lake Villa.

Following a short honeymoon trip they will make their home with the bride's parents for the winter. Mrs. Gordon Martin and Mr. Eugene Sheehan presided at the punchbowl at the reception.

## BERTHA JEAN OVERTON'S MARRIAGE IS ANNOUNCED

Antioch friends were informed a few days ago in letters from Bertha Jean Overton of her marriage last Feb. 23 to Harry Johnson of Minneapolis, Minn., where she has been employed for the past few years.

The bride is the daughter of Mrs. Chris (Lotus) Laursen, a former Antioch resident who is now living near Los Angeles.

The former Miss Overton has kept up her acquaintanceships here through occasional visits, but her marriage had not been announced to her Antioch friends until a few days ago.

## CHRISTIAN SCIENCE CHURCHES

"Unreality" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 5.

The Golden Text was, "All that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof; but he that doeth the will of God abideth for ever" (1 John 2:16, 17).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit. Every tree that bringeth not forth good fruit is hewn down, and cast into the fire. Wherefore by their fruits ye shall know them" (Matthew 7:18-20).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Everything good or worthy, God made. Whatever is valueless or baseless, He did not make;—hence its unreality. In the Science of Genesis we read that He saw everything which He had made, 'and, behold, it was very good'" (p. 525).

## Business Women Enjoy Informal Dinner Meeting

Puns, impromptu rhymes and skits figured in an evening of impromptu entertainment enjoyed by members of the Antioch Business and Professional Women's club at the first meeting of the year, Monday evening in the Ball hotel.

The evening opened with a 6:30 o'clock dinner at which both the menu and the decorations, carried out the fall colors and themes, with orange, green and coral as the predominating colors.

Covers were placed for 35. Mrs. W. J. Bennett presided during a brief business period during which plans for the year were tentatively sketched.

The meeting was then turned over to members of the program committee, who led in informal games and stunts.

## ANTIOCH WOMEN ENTERTAIN IN HONOR OF FORMER SCHOOLMATE

A luncheon at the home of Mrs. B. R. Burke Tuesday honored Mrs. Sigfried Johnson, of Batavia, Ill., who is a guest of Mr. and Mrs. A. Mathisen at Haven Heights farm near Bristol. This evening a six o'clock dinner will be given in honor of Mrs. Johnson at the home of Mrs. N. E. Sibley at which several former schoolmates of the honored guest will be present. Mrs. Johnson was the former Daisy Lou McNamar, daughter of the late Rev. and Mrs. Frank McNamar. The Rev. McNamar served the Antioch Methodist church as pastor from 1905 to 1909. After leaving Antioch, Miss McNamar went to New York to continue her studies in music, and later under the name Margo McNamar (the stage name given to her early in her career by her sponsors) she appeared on the stage, in radio, and also made many concert tours that took her to all parts of the United States.

## WOMAN'S CLUB ENJOYS SONGS AND READINGS

A beautiful speaking and singing voice and an attractive personality and appearance, helped to make delightful Miss Phyllis Underwood's program of dramatic readings and songs at the club for the 1941-1942 season, Monday, Oct. 7.

Forty-six attended the meeting, which was held in the Roundup restaurant on highway 21, and opened at 1 o'clock with a delicious luncheon of creamed chicken served by Mrs. A. K. Mueller.

Copies of the club's 1941-42 yearbook which have been distributed to members list the following programs arranged by the committee of which Mrs. D. N. Deering is chairman:

paint, new lighting fixtures, etc. Emil Lubkeman is doing the carpentry work, Max Huber the painting, and Robert Wilton is in charge of electrical work.

Somewhat told Chas. Ackerman that "made" soil was no good for growing vegetables. Just to prove they were wrong Chas. brought to town the other day four spuds that weighed a total of 4 1/2 lbs. One of them weighed 1 lb. 5 oz. The potatoes, as well as some other choice vegetables were grown on some of the "made" land in Ackerman's developments at Indian Point.

It's auction time again and some of the posters about town have been causing no end of argument, amusement and in rare cases, enlightenment for the boys who like to read "em." Frinstance—the other day the phrase "milk" cows had the wise boys hanging on the ropes. That was pretty good for an ordinary auction bill but "300 year-old hens" really had 'em floored. "You ain't kiddin' me—there ain't NO hen 300 years old," was the comment of one more or less innocent bystander. Well, boys, just to keep the record straight—a "milk" cow is a cow giving milk and "300 year-old hens" is a correct listing; that is there are 300 hens, each of which is one year old. The insertion of a hyphen, however, would change the entire meaning, like this: "300-year-old hens," interpreted as any number of hens 300 years old. Of course, no hen reaches that ripe old age. . . . Strange the boys failed to comment on the "New Idea manure spreader." But then, the idea is not new around Antioch.

We ain't bin lookin' over the papers much lately, but one of our readers gave us an awful shock by sending in this little excerpt from the Chi. Trib. of Sept. 26—

## HOTELS PROTEST PLAN TO PUT TAX ON TOILET SEATS

Muskogee, Okla., Sept. 24 (AP)—A committee to confer with the city council on their means of raising revenue has been appointed as the result of a meeting called by hotel operators to protest a pending city tax on toilet seats.

A. Carlisle Young, hotel manager, said the 25 cents per month tax would be "vicious because it would place the greatest percentage of the burden on hotels, apartment houses and the like." The tax measure has been approved on first reading and the council will vote finally upon it Oct. 13. A council committee estimated the tax, collected with monthly water bills, would raise \$45,000 a year.

—It's an outrage.

Anything can happen on the main drag in Antioch and frequently does, but it was a new one on us when the guy in the green sedan parked his car neatly on the sidewalk alongside of the doorway to a tavern and let out a couple of guys handy to said doorway, and then had quite a bit of difficulty edging around to back the auto down and out into the street again.

When Mrs. Betty Mortensen, whose restaurant is one of the reasons why Antioch is famous for good food (we always have maintained that it's hard to get a really BAD meal in Antioch) suffered from burns and shock recently when gas escaping from an unattended burner in an oven blew up . . . what do you think was the thing she felt worst about? Not the burns which covered her face, neck and arms like a bad case of sunburn—because they fortunately left no scars; not the suffering and shock—although she was in bed for several days with a mask of dressings and salves over her face, recovering; not the frizzed effect resulting when some of the front curls in her hair caught fire and burned off—"They'll grow out again," she says philosophically; and not the loss of the pretty pink uniform which had to be sent off so the burns on her arms and neck could be dressed. Nope—it was the ruination of the brand new pair of \$1.95 nylon stockings she was proudly wearing at the moment the gas blew up and showered her with flame, soot, hot flecks of burned sugar from run-over-apple pies, and about everything else that was in the oven ("I guess that blast really cleaned it out," says Betty). Anyway, it seems like whoever it was that said something like "It's the little things in life that a woman really remembers" must of bin right. He sure was.

Mrs. Deering, program: Mrs. Mathews, citizenship; Mrs. Sibley, membership; Mrs. Chinn, social; Mrs. French, literature; Mrs. Edmund Vos, music; Mrs. Gaston, art; Mrs. Bratrude, education; Mrs. S. A. Jedele, public welfare.

cided to relieve himself of this responsibility. Hundreds of tons of hay and silage, and many thousands of bushels of grain, corn and soy beans will be sold, as well as more than 75 head of feeding cattle, and 75 dairy cows direct from the L. C. Christensen & Co. barns at Abbottsford, Wis. The triple line of machinery, including tractors, harvesting machines and combines, will be sold in the morning, followed by the huge livestock dispersal in the afternoon. Lunch will be served on the grounds all-day, and it is expected that many of the visiting buyers will bring their families for the event. Operation of the L. C. Christensen & Co. livestock business will be transferred to the Christensen barns at Caledonia where it started more than 30 years ago.

Colonel Christensen will be host on this occasion to all of his friends from various parts of the country. Two years ago Mr. and Mrs. Christensen bought a winter estate near Pass Christian, Miss., and they will spend the colder months there.

## Lost Graveyard Is Hunted; Scene Of Eerie Legends

### Shade of Lovely Lady Said To Stroll With Three Headless Spaniards.

CHARLESTON, S. C.—The lost graveyard of Bald Head, where the shade of a lovely lady is said to stroll in the moonlight accompanied by three headless Spaniards, is the object of an exciting search launched by a troop of Greensboro (N. C.) Boy Scouts.

Bald Head Island—officially Smith's Island—was the earliest settled point on the lower North Carolina coast. It lies at the mouth of the Cape Fear river, off Southport. The original settlers were pirates, and doubtless picked the island because of its strategic location althwart the coastal trade routes.

**Drove Pirates Out.**  
America's first Charles Town was settled on Cape Fear, six miles above Bald Head. But the pirates made things so hot for the settlers that they moved their town to the Cooper river mouth in South Carolina and subsequently contracted the name to Charleston.

Settlers eventually overcame the pirates and drove them out. For a few years the island was a law-abiding community. Then the mainland town of Smithville—now Southport—was founded, and gradually Bald Head's residents moved over to it.

For years the island was uninhabited, save for lighthouse keepers and Coastguardsmen. The jungle reclaimed the cleared lands of the settlers, including the graveyard where rested the bones of the early settlers, honest and otherwise. Among the simple headstones was a more pretentious vault of red brick. The bricks were brought from England with those for St. Phillip's church at Orton's Plantation, a few miles away.

**Shade of Burr's Daughter.**  
The lady ghost who walks the sands of Bald Head supposedly is the shade of Mrs. Theodosia Burr Alston, daughter of Aaron Burr, and wife of an early South Carolina governor. Mrs. Alston left Charleston on the sloop Patrick, bound for New York. Shortly after a violent storm struck the Carolina coast and the Patrick never was seen again. Many believed she went aground on Cape Fear shoals off Bald Head, and that the pirates captured all aboard, including Mrs. Alston, a reigning beauty of her day.

As to the three headless Spaniards, even legend is cloudy. It is generally conceded that they were pirates. Perhaps they lost their heads in combat with their fellow buccaneers. Anyhow, according to legend, they now roam on Bald Head with a troop of Greensboro Boy Scouts hard on their heels.

### Farmer Discovers Cache Of Ancient Treasures

WINNIPEG, MANITOBA.—D. J. Prystach, a High Bluff farmer, isn't saying exactly where he found it, but he claims to have discovered a rich store of treasure, seemingly looted from white men by Indians and buried on an island in the Assiniboine river during a bloody battle between rival redskin tribes more than 180 years ago.

Prystach said he first discovered an old cedar log buried deep in the sand on the island. He split the log apart and found bits of colored glass and tiny particles of copper, brass, silver, gold and lead.

He said he then made a second and more startling discovery. He related that he was walking through the bush on his estate when he noticed a stream of water running into a hole in the ground. He enlarged the hole and bared before his eyes was an amazing treasure.

It included, he said, exquisite rings, bracelets, earrings, buckles, chandeliers, goblets, vases, sword hilts, powder horns, knives, trays, kettles, braziers, even bars of gold and silver. Some of the gold bars were stamped with names of famous men who lived 200 years ago, including Governor Lawrence of Acadia.

### He Plunges Into Well And Is Unmissed 5 Days

SOCORRO, N. M.—When Manuel Silva started to help flood rescue workers he fell into a 30-foot well—and nobody missed him until the flood was over.

For five days Silva was in the well while his family believed he was fighting the flood.

Finally boys heard him shouting for help from the well near his home.

Except for hunger and exhaustion Silva suffered no ill effects.

### Army Food Complaints Are Laid to Sweet Tooth

Memphis.—If you mothers get a complaint on army food from your boy in camp, it's more than likely the yearning of his "sweet tooth."

The army's food is good and there's plenty of it, Second Army Commander Lieut. Gen. Ben Lear said; but—

"Frequently complaints are due to a schoolboy desire to persuade mothers to send them a batch of home-made cookies or fudge," he added.

### Wife Back Seat Driver, He Asks for Divorce

CAMDEN, N. J.—For 10 years or more Elvin F. Schaeffer testified in a divorce action he was not allowed to whistle, sing or play his cornet in his home.

"The only pleasure I ever had was in driving the car," he added, "and even then she was always in the back seat telling me where to go."

### Sire of 12 Would Enlist for Rest

#### But You Couldn't Buy One Of Tribe for Million.

PITTSBURGH.—Samuel Howard Isenberg, at 35 the father of 12 children, was disappointed recently over receiving quick deferment from army service because of his long list of dependents.

"It gets a fellow down sometimes when you gotta be around here all the time with all these kids," he said. "I really would have liked some army training—I figured it would give me a little bit of a vacation."

Selective service board members in McKees Rocks stared at him when he turned in his questionnaire. To list all his dependents, he had to attach an extra sheet of paper to it—and write small at that.

"They couldn't believe I had that many children," Isenberg chuckled. "But I finally convinced 'em. After all, I had proof home."

He said the board reacted like this:

"Wow, you've done your duty. You're excused—deferred."

The board said that so far as it knew, no other registrant in the nation had reported so large a family.

Isenberg, a \$190-a-month railroad employee, got married when he was 16 and his wife, Stella, was 15. They now have these mouths to feed: Rosalia, 18; Dorothy, 16; Samuel, 15; William, 13; Audrey, 12; Theresa, 11; Charles, 10; David, 7; George, 5; Howard, 4; Eileen, 3; and Johnny, 17 months.

"And do they eat," he said. "The grocery bill takes half my pay. It's pretty hard sometimes—but don't get me wrong—I wouldn't take a million dollars for any one of my tribe."

Although he'll remain in civilian life, Isenberg feels he's doing his bit anyway. Because of the rush of transporting defense orders, he said, he gets only every other Saturday off. He's a freight and yard conductor for the Pittsburgh & Lake Erie railroad.

### Shoes Concern of 7-Foot Youth on Farm in Iowa

FINCHFORD, IOWA.—Peter Maas, 24-year-old farm youth, who stretches seven feet and is pretty sure he is the tallest man in Iowa, can do the work of two men.

But he wishes something could be done about his shoes.

Peter weighs 215 pounds. He wears a size 10 work shoe and a size 15 dress shoe. They usually last him only about a month because they are a special type usually made only for men suffering from gout.

Consequently they aren't heavy enough for farm work and are soon worn out.

"I've tried to find an old-time shoemaker who might have heavier shoes, but it seems all they do any more is repair shoes, not build them," said Maas.

### Polite Bandit Robs Bank, Escapes in Cashier's Car

TOLONO, ILL.—A well dressed man who said "I hate to cause you this inconvenience" held up the Citizens' National bank, locked the cashier and three other persons in the building and, with the banker's son as hostage, escaped with \$1,108.

Cashier F. D. Lewis said he and his son, John, 17 years old, surprised the bandit when they went to the bank to mail a letter before the Lewis family started on a vacation trip to Minnesota. After compelling Mr. Lewis at the point of a gun to open the vault, the bandit forced John to drive him 10 miles to Champaign with the threat that "If anyone chases me it will be too bad for the boy."

John made the trip to Champaign and back in 20 minutes.

### Bag Two Rattlesnakes On Streets of New York

NEW YORK.—An early morning pedestrian on Madison avenue approached Patrolman Julian Erdy at 113th street with the unconvincing statement:

"Honestly, officer, I tell you I just saw two rattlesnakes."

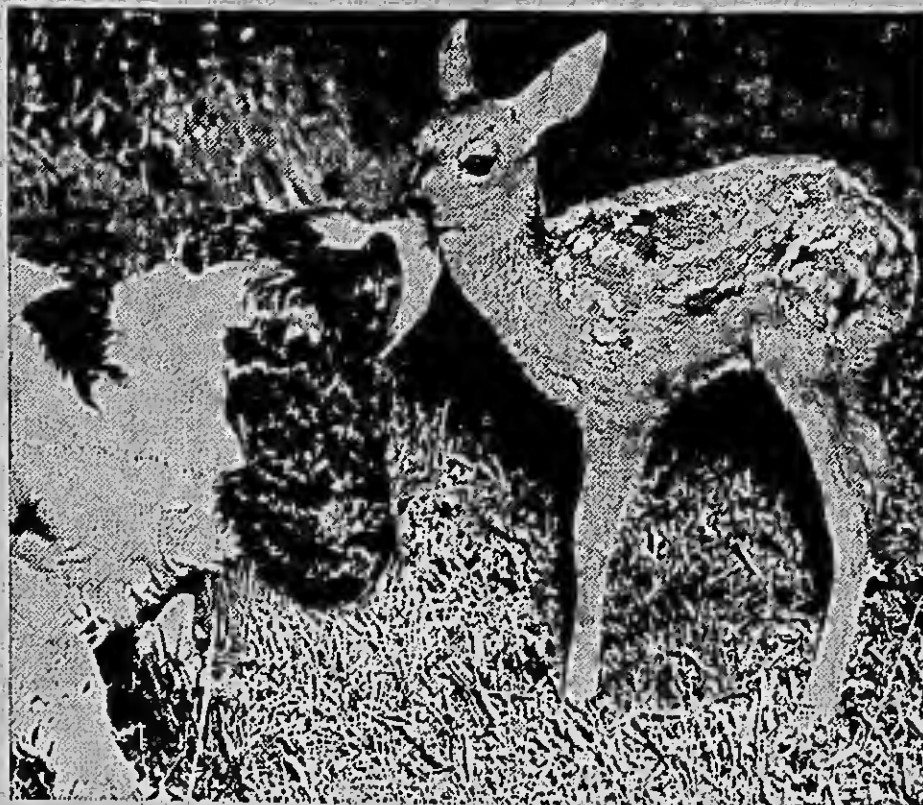

Officer Erdy viewed the situation with doubt.

He walked down the avenue a few yards, however, and there before his startled eyes slithered two full grown rattlers. Erdy was convinced.

With the aid of two other officers and a broom Erdy got the snakes into a bag and brought them to a police station.

Where they came from still is a police problem.

## Let Me Call You Sweetheart

**Rare Bird**  
What the eagle is to the U. S., the quetzal is to Guatemala. The quetzal (rhymes with pretzel) is a rare, lovely bird with bright green plumage, blood-red breast, fuzzy topknot, yard-long tail feathers. Quetzal is also the name of the Guatemalan money unit, and the bird's graven image appears on the national seal, coins, stamps. The quetzal was venerated by the ancient Aztecs, Toltecs, and Mayas as a colleague of the plumed serpent god, Quetzalcoatl (rhymes with pretzelcawtle), god of metallurgy, agriculture, wisdom, health. Only priests and nobles could wear quetzal plumes in their headdresses.

## Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

WITHIN the next two years the airplane industry of the United States will suffer from a shortage of skilled mechanics if the present rate of training is not speeded. This fact was disclosed by two surveys that estimated a need of eight to ten mechanics per airplane.

The surveys, one by a government agency and the other by a committee of the Aeronautical Chamber of Commerce, also reported that private schools which teach mechanical courses were operating at about 50 per cent capacity.

Three major reasons were cited by the school men for the low level of their business:

(1) Young men who would have gone to a mechanic's school find that they can now get jobs without training because of the defense program.

(2) Selective service has taken many young men who either were in school or would have gone to school.

(3) The government is offering free vocational training, which does not equip men to service airplanes but nevertheless lures many men away from more expensive training.

This problem of training mechanics is a very vital one and steps should be taken to remedy the situation. Skilled mechanics are not trained overnight and all qualified schools should be utilized to the fullest extent. The aviation industry is providing a certain amount of apprentice training for its unskilled workmen, but there is no reason to believe that the industry can supply all the men who will be needed.

**Match Marks**  
Match marks on a pointed surface can be removed by rubbing with a cut lemon.

**Preserving Wild Life**  
A pact signed by 17 American republics to protect and preserve wildlife in the Western hemisphere will particularly benefit migratory birds.

**Trans-Iranian Railroad**  
Cost of constructing the Trans-Iranian railroad from Tehran to the Caspian sea is estimated at more than \$500,000,000.

**From Massachusetts**  
Maine, Vermont, and West Virginia were formed from parts of Massachusetts, New York and Virginia.

**Origin of Softball**  
Softball, originally called indoor baseball, originated in 1887.

**OBEY THESE RULES**  
*Help Save Both Dollars and Lives*

- 1 Be doubly sure your match, cigarette or cigar is out before you throw it away. At home use deep ash trays.
- 2 Don't let rags which have been used for oil or paint accumulate. Throw them away, or burn them up if possible.
- 3 Don't use cheap electrical wiring. Make sure that it's approved and safe. Have a reliable electrician do all of your electrical work.
- 4 Avoid using explosive fluids for cleaning or other purposes. If you must, be sure it is not near an open flame or burning cigarette. Avoid rubbing.
- 5 Don't use coins to replace burnt-out fuses and always fix defective electrical fixtures right away.
- 6 Be sure there are no gas leaks in your home. Have the system checked regularly.
- 7 Do not overheat your furnace and check the chimney for leaks and sparks.
- 8 Teach your family the danger of fires and what to do in case of one.
- 9 Do away with old, defective appliances and machinery that could cause fires.
- 10 In case of fire, CALL THE FIRE DEPARTMENT RIGHT AWAY.

The viands were of the choicest and were served in a manner befitting the occasion, and none of those who were present could help feeling that they had been royally entertained. The ladies spared no work, time or expense to make the affair one which they could well be proud of, and to say their efforts were appreciated by their guests but mildly expresses it."

In his annual report, President Whitcomb said of plans for the extension of the Wisconsin Central railroad.

"During the year contracts were entered into for the construction of forty-one and one-half miles of road from Owenpoint, on the main line, 12 miles west of Abbotsford, to Lady-smith, a station on the Minneapolis, St. Paul and Sault Ste. Antioch to have good roads next season—sounds too good to be true, doesn't it? But listen—a fund of

\$5,000 is to be raised by subscription between now and April 1, 1920. Two patrol routes are to be established, No. 1 to cover the road from state line south through Antioch to township line near Loon lake, and from Lightner's Corners west to Sylvan Beach; No. 2 to cover the road from Antioch to Grass Lake and from Grimm school house to Beach Grove. A patrolman (and team) is to be hired for each route for eight months, April 1 to Dec. 1. The first \$500 is to be expended at once for cutting gutters, grading and draining Main street in Antioch.

**Catching Flies**

An ingenious system has been used for collecting small flies. A mushroom grower, who used manure as a fertilizer, found that he had raised a plague of flies. He called in an engineer, who promptly installed suction fans which drew off the flies. But the engineer did not stop there. Having solved the mushroom-grower's immediate problem, he was worried to see the flies being wasted. So he added refrigeration coils to the fans. These chilled the flies and caused them to drop into large cans. Frog farmers eagerly bought the dormant flies.

Arrangements: Geraldine Ross, Elizabeth Tautges, sponsors; Sarah McBride, chairman; Ruth McGlynn, Elizabeth Greens.

The theme of the conference is "Home vs. Career," and a program has been planned to include a song and dance history of the American girl.

Students of Libertyville and Warren, the two other schools in the conference, are busy making covers for the programs and printing tags.

## Drama Club to Celebrate Book Week with Tableaux

(By Rosalie Sibley)

The dramatic club of the Antioch Township High School, in observance of Book Week, will present tableaux representing various books Monday, Nov. 3. The public is invited to attend the program, which will start at 2:30 p. m. central standard time.

The first Book Week was celebrated in 1919. The theme that year was "More Books in the Home." November was selected the month in which to place Book Week because the fall publishing season is then well under way. Book Week is not intended to be the only week for the distribution of children's books; but it merely a week in which to arouse new enthusiasm, which lasts throughout the year.

Fourteen girls of the club were selected to choose the players for the tableaux. The committee is as follows: Rose Marie Zellhofer, Lilal Mader, Grace King, Rosalie Sibley, Jean Zender, Phyllis Palmer, Marjorie Hanesy, Betty Hoff, Jean Oren, Lucille Sherman, Sybil Johnson, Vivian Cogrove, Jennie Newell, and Irene Hoff.

## Changes in Junior Class Play Casts Are Announced

(By Rose Marie Zellhofer)

Some changes have been made in the casts announced last week for the junior play, "Don't Take My Penny," to be presented at the high school Nov. 6 and 7.

The cast for the performance Thursday, Nov. 6, includes: Sally, a maid with a purpose, Sarah McBride; Norman Porter, a publicity man; George Pierce; Penny, a pretty little miss; Carol Waters; Caleb, her orphaned father; Ted Smith; Mark, her hard-headed brother; Lawrence Yopp; Mavis, her attractive sister; Una Nelson; Lydia, her busy mother; Virginia Poulson; Joanna, her loyal girl friend; Doris Strang; Kerry, her resourceful boy-friend; Roman Pannestill; Greg, his pal with ideas; Charles Fisher; Gram, just herself; Alice Ward; Monsieur Henri, a French designer; Howard Hagaman; three pretty young models; Marjorie Hanesy; Violet Smith; and Alice Fox; Red, a delivery boy; Henry Gantt; Harrison Day, a young author; Harry Krueger; and a Rhode Island Red Hen.

The cast for Friday night, Nov. 7, includes: Sally, Ella Payer; Norman Porter, Clarence Dressel; Penny, Betty Scheiber; Caleb, Charles Jorgensen; Mark, Gerald Marris; Mavis, Jeannette Dhuysveter; Lydia, Laura Jean Minto; Joanna, Clara Wurster; Kerry, Dale Barnstable; Greg, Jack Fields; Gram, Elaine Nelson; Monsieur Henri, Howard Hagaman; three pretty young models; Marjorie Hanesy; Violet Smith; and Alice Fox; Red, Henry Gantt; Harrison Day; Harry Krueger; and a Rhode Island Red Hen.

Rehearsals are progressing exceedingly well, according to Mrs. Marguerite K. Phillips, director of the play.

## Peggy DeBaets Heads Home Economics Club

(By Rosalie Sibley)

The Home Economics club of the Antioch Township High School elected officers at a meeting held Tuesday, Sept. 30.

The girls elected Peggy DeBaets as their president, Carol Ruth Upton as vice-president, Shirley Wells as secretary, and Gertrude Horton as treasurer.

## Sequoits Swamp Grant High, 19-0

Game with Zion Friday Afternoon Is Next on Program

Antioch Sequoits plowed through a muddy field to swamp Grant Bulldogs in a 19 to 0 victory Friday, Oct. 3.

In the first quarter Antioch took the opening kick and marched to Grant's 25 yard line, where they were stopped. The ball was taken by Grant, but their attempts to penetrate the Antioch line were stopped. On the fourth down Grant's center attempted to pass the ball back to the fullback, Koste, but the pass went over his head and the ball rolled to the goal line where it was awarded to Antioch, first down with a half yard to go for a touchdown. Stoenz circled the right end for a touchdown. Stoenz attempted placement was wide.

Shortly after the start of the second quarter, with the ball deep in Grant territory, Grant attempted to punt out of danger. Once again, the pass from center was bad, thus allowing Stoenz to crash through and block the punt on Grant's 25 yard line. The ball rolled back toward Grant's goal line with Stoenz in mad pursuit. He attempted to recover the ball, but it eluded him and bounded across the goal line where Ed Jones fell upon it for a touchdown. The point after the touchdown was scored by a pass from Stoenz to Jim Jones.

A few minutes later in the second quarter, with the ball in Antioch's possession on Grant's 45 yard line, James Roepenack broke through Grant's line and out into the open where he raced 45 yards in a beautiful open field run for an Antioch touchdown. The try for the point was wide, thus leaving the score 19 to 0 in favor of the Antioch Sequoits.

Shortly afterward Stoenz was lost to the Sequoits for the remainder of the game. After his removal the Antioch attack bogged down and the rest of the game was a see-saw battle with Roepenack constantly threatening to break into the clear, but because of muddy condition of the field Antioch's blockers were not able to clear a path as ably as they had done previously.

Bert Jordan, Sequoit mighty mite, who weighs all of 125 dripping wet, brought the crowd to its feet with two shoe-string tackles after enemy backs had broken into the clear.

Antioch's line, sparked by Bill Effinger, Ed Jones, Charles Dalke and Art Carpenter, stood out defensively. The Bulldogs' outstanding players were Koste, on the offense, and Bladsoe and Walsh for the defense.

M. H. Weiss, assistant coach of the Sequoits, said Friday, "For the first time this year the boys showed sparks of a well-balanced, co-ordinated attack. The return to action of Jim Roepenack was a great stimulus to team morale, and because of his able ball-handling, Grant could not concentrate all its attention upon Stoenz, who had been a marked man heretofore."

The Antioch team may be minus one of their most able players in the game with Zion to be played at Antioch Friday, Oct. 10, for Stoenz, co-captain of the Sequoits, suffering from an attack of appendicitis, was taken to the hospital Monday afternoon, and may be out all the football and most of the basketball season.

## Freshmen Are Initiated at Annual "Sequoit Pow-wow"

(By Rose Marie Zellhofer)

The annual Sequoit Indian Pow Wow, at which the freshman boys were initiated into the Sequoit tribe, was held at the grove of the Antioch Township High School Wednesday, Oct. 2, with many members of the faculty attending.

A potluck supper was served, after which Jim Roepenack, as the traditional Sequoit Indian, danced around the fire. Sequoit emblems were given to all the newly-initiated members. The party ended at 8:30 with a "friendship circle" singing "Antioch Hike."

## "Pep" and "A" Clubs Sponsor Victory Dance

(By Rosalie Sibley)

The Pep and "A" clubs held a dance Friday for the students of the Antioch Township High School.

The dance, which was held to celebrate Antioch's 19-0 victory over Grant Friday afternoon, started at 7:30 P. M. and lasted until 10:30 P. M.

## Money in Patches

Numerous neat patches on the clothing of a tramp in the Comstock district of Australia, earned him the name of "Billy Patches," and by that name he was known until he died. He was considered "queer, but harmless" because of his patches. After his death it was revealed that under each patch was sewn a treasury note and that "Billy Patches" really was a walking bank, according to reports received in Sydney.

## Trousseau From 'Trusse'

"Trousseau" comes from the early word "trusse" and means "a small bundle." It goes back to the days of marriage by purchase. This bundle, or dowry, was to compensate the groom in some degree for the purchase price of his bride. The same was true of the hope chest. If the groom looked the dowry over and found it unsatisfactory he could refuse to go through with the ceremony.

## Got Wooden Leg

Out in Colorado, Timeo Valdez had vainly tried for two years to get together enough money to buy a wooden leg. When he heard that they handed them out free in State prison, Timeo went out on a "job." Win or lose, he figured he was sure to get his new leg.

## Infant Death Rate Drops

The infant mortality rate in New York city in 1900 was 160 per 1,000 living births, according to statistics. Within the past few years the figure has been reduced to 50 per 1,000. According to medical groups, three-fourths of the 2,000,000 annual deaths of American children can be prevented. Twenty-one per cent of these deaths are due to curable diseases, while 56 per cent are due to preventable conditions.

## Curbing Speeding

Panama has a sure method of curbing speeding. Highways are divided into 10-mile districts. As you enter the highway you are given a time card. At a control station 10 or 20 miles beyond you submit the card. Just a glance at the officer's watch and—if you made the distance too fast—you're pinched.
